3. Programme Structure: Four-Year Full-Time Distance Programme

PLEASE NOTE:

Edutel Higher Education offers students two options:

- Unemployed students who will study full-time, via distance learning, on the four-year distance learning programme.
- Employed students who will study part-time, via distance learning, on the five-year distance learning programme.

All modules are compulsory, including English as First Additional Language (in years 1 and 2). The EXCEPTION is Home Language modules, Second Additional Language modules (language of communication) and First Additional Language modules in year 3. Here students have a choice between the different Home Languages, Second Additional Languages where the student must select one Home Language, one Second Additional Language and one First Additional Language (year 3) from the languages presented.

The Home Language selected must be aligned with the Home Language completed in matric (senior certificate level). If Edutel does not offer the Home Language that students completed in matric or in another qualification, students can select the next language that they are the most familiar with.

The Second Additional Language is determined by the Home Language of choice. The table below will guide students in selecting their Second Additional Language.

Home Language	Choice of Second Additional Language (LOCC)
isiXhosa or isiZulu	Sepedi or Setswana (Sotho families), Afrikaans
Sepedi or Setswana	isiXhosa or isiZulu (Nguni families), Afrikaans
English or Afrikaans	isiXhosa, isiZulu, Sepedi, Setswana

In year 3, students need to choose a First Additional Language. If Edutel offers the First Additional Language that students completed in matric (senior certificate level) or in another qualification, the same First Additional Language must be selected. If we do not offer the First Additional Language that students completed in matric, students must select the next language that they are the most familiar with.

Work-Integrated Learning (WIL)

Work-Integrated Learning (WIL) is the term given to educational activities that integrate academic learning of a discipline with its practical application in the workplace. The aim is to ensure that students develop the ability to integrate their learning through a combination of academic and work-related activities.

Students are required to select a school in the area they live, where Foundation Phase is being taught. The school must have an appointed HOD for Foundation Phase and an EMIS number. Apart from selecting a qualifying school, the school must also make a mentor teacher available to mentor and assess the student, during WIL.

Edutel Higher Education reserves the right to approve or reject the selected school. Should Edutel Higher Education not approve of the school, the student will be required to select another school, complete the appendices again, and submit to Edutel Higher Education.

Once Edutel Higher Education has approved the school it is accepted that you will complete your WIL at the specific school. Should you for some reason wish to change your school, please inform the Registrar of such change, to obtain approval for the new school chosen.

Should you register between 1 June and 31 December, you will be required to do your WIL either in August or September. Should you register between 1 January and 31 May, you will be required to do your WIL in February or March.

During the 20 weeks' school-based teaching practice (WIL), the students will engage in teaching within the professional school environment, under the supervision of experienced teachers as mentors, and will be formally assessed by suitably qualified assessors of Edutel Higher Education.
Note:
- **All students enrolled for the four-year full-time distance programme will start with the four weeks of teaching practice (WIL) in the second part of their first year.**
- **All students enrolled for the five-year part-time programme will start with the four weeks of teaching practice (WIL) in the second part of the year, of their second study year.**

Formative assessment

One three-part compulsory formative assignment per examinable module must be completed and submitted on the Edutel Online Platform in three parts, namely short questions in Part 1; longer paragraph type questions in Part 2; and a set of 50 multiple-choice questions in Part 3.

The three parts respectively contribute on a 20:50:30 basis to the final assignment mark (i.e. the year mark). Students must obtain at least 40% in the assignment mark to qualify to write the examination in each module. The formative assignments are designed to adequately prepare students for examination.

Non-examinable modules will have three assignments. Assignment 1 makes up/contributes 50%, Assignment 2 makes up/contributes 30%, and the quiz makes up/contributes 20% to the final mark of each module.

Assignments must be done and submitted on Edutel Online.

For examinable modules, final marks carry the following weights:

Your Assignment - contributes 30% to the final mark.
Your Examination - contributes 70% to the final mark.
For non-examinable modules, a quiz on Edutel Online will count 20% and two formal assignments contribute 50% and 30% to the final mark.
Tutorial Letter 2 as well as the three multimedia lectures provide comprehensive feedback to students on formal assignments, as well as guidelines for preparation for the examination. An online Zoom session prior to the examination further ensures that students are supported.

Summative assessment

All modules (excluding Second Additional Language modules and the ICT module) will be assessed through a formal examination which will be conducted on an annual basis.

Examinations

If you register between 1 June and 31 December, you will write your first semester examinations during May/ June the following year.
